“ I don't even know where to start or what to really write here I still can't believe I'm writing in my baby's father Obituary page it's still so unreal although we weren't together as a couple I still had a lot of love for him he had a brilliant mind and a compassionate heart he was selfless like no one else he would literally give me the shirt off his back i know that's cliché but it's the truth he would do anything for me or his children or anyone really he just wanted to be loved and he was loved very much by his family I can't even describe the smile and the twinkle in my girls eyes every time they saw his face they would get so happy they would literally dance his hugs were the best like he never wanted to let go almost like he knew he wouldn't be here much longer he would hold on so tight I will never ever forget the memories we shared together and the two beautiful girls we created together they now have a daddy angel watching over them every single second of every day knowing he's not in pain anymore is the only thing that keeps me moving on he's in good hands with our lord and will no longer suffer I will miss you forever Jake dean I will never ever forget you I'll always look up to the sky and think of you and smile Melanie and penny will always love you and I'll never let them forget you and either Jake ... “ Jacob you will be surely missed. You were a kid in a man's body . You three girls that you left behind will be reminded everytime we see them how much there dad truly loved them. Your love for those girls was so heart warming The glow you put on your mother's face everytime she was with you was priceless. You lit up a room everytime you enter it. not many people I can say the same thing for. Since you are now up there with the big guy do me one favor and help me look out for your mom. let her no that you are watching her and let her no that you are happy and pain free. We will meet again someday. I never had a child but i am so proud to call you my stepson.

Jake he was a genuinely kind person who didn't have a bad thing to say about anyone. He would come write my name and put a design around it it was one of the coolest things I've seen. He could also build anything and was constantly making contraptions that amazed me. But the most memorable thing about Jake was how much he adored his girls. He make me watch these videos and even if I didn't really feel like it his enthusiasm won me over. I'm really going to miss him and his quirky ways. Thank you Jake for being a part of my life and I'm sorry yours ended way too soon. I hope your at peace.

*I've know Julie, Amanda and Jake for about 20 years. I've watch Jake grow up. Time passed so fast. I blinked and he was a daddy with 3 little girls. I was shocked to see him with a beard. In my mind he was still that little boy with all that energy. You will be missed. Now you can rest in eternal life. Love you.*
