“ So very sorry for your loss. We worked together for many, many years. He drove me to and from school for lots and lots of winters. During the rides we solved many of the school's and world's problems. He was also a neighbor, friend, and church mate. Sorry not to have been able to attend his service in person. So sad that that awesome singing voice has been silenced. Our deepest sympathy to all of you. Mary and William Swift

“ Charles and Bridgette We remember your father so well. He sang with us in the First Baptist Church choir many years ago and he was so much fun. Often when we were eating at the Kopper Keg he would come in to have a slice of coconut cream pie, (his favorite) he would say. Even after he retired we would greet each other at Cuba post office quite often. The picture you chose sure is a true pic of him. Alice Resch and Kate Harbeck

“ I had the absolute joy of working with Russ at Friendship School as a fellow science colleague. He was wonderful to work with and always had a smile on his face! He loved life and brought that joy to school everyday! He always blessed us with a song and a cheerful greeting every morning! I will miss this dear man and am so thankful I had the opportunity to call him a friend. Heaven gained a true angel!

“ After I retired and had lived out of state for a few years, Russ called me to ask if I wanted to be a (not so secret) secret pal! Of course! So, for several years, we exchanged holiday and birthday gifts. It was always a fun phone call from him warning me of the impending arrival of something surprising.

I will miss him and his energetic calls telling me about his subbing days. ❤️

Russell was my high school teacher and later my colleague. Two incidents made my class memorable to him. The first was the breaking of one of his faucets at a science lab and water spraying all over the classroom. Next, a small group of us would take chemistry and physics class with him and he would graciously grade our tests right after we took them so we could see who earned the highest points. The year I took chemistry the regents exam was not given because it had been tampered with. That was unheard of in the day, boy were real lucky! After college I taught with him for 13 years. He had a positive spirit and hummed as he walked down the hallway. RIP Russ, you'll be missed!

*Russell and I were cousins. I recall visiting and playing together when we were both much younger. My employment took me out of the Buffalo area many years ago, but when I returned on visits and Russell was present, I found him to be so congenial always with a smile on his face. Knowing how challenging teaching is, his 41 years of teaching is a great testament to him. May God bless and protect you, Cousin!*
