

Sheri Baczkowski MD

March 5, 1966 - April 25, 2020

Dr. Sheri Baczkowski passed away Saturday, April 25, 2020 in the company of her loving family. Born March 5, 1966, she was one of seven girls born to the late Dennis and Marilyn Baczkowski; loving and devoted mother to Jenna and Mia Wild; former wife to Jerry Wild; dear sister to Denise Bristol, Toni Marino, Holly Baczkowski Lisa (Dennis) Steszewski Brandi (Mike) Arcara and Kristy (Joe) Miano; cherished Aunt to eight nieces and ten nephews. A mass of Christian burial and celebration of Sheri's life will be held at a later date. Sheri will be fondly remembered and forever missed. Share condolences at www.Smolarekcares.com

“ I was very sorry to hear of Doctor Baczkowski's passing and send my deepest condolences to her friends and family. Dr. B listened to me and believed me. Even though I was 25, single, with no children, she performed the tubal ligation surgery I had been desperately wanting. July 7th 2020, just two days ago, marked the fifth anniversary of my surgery. I celebrate it every year, along with the doctor who respected and helped me.

“ My sincere condolences on the loss of your mother/daughter/sister/friend. I always felt comfortable with Dr. Sheri and followed her wherever she was practicing. Even when I saw her only once a year, she would ask about my daughter and I, in turn, would inquire about her twin girls. She was someone well suited to her profession and will be greatly missed. May you find comfort in memories of good times spent together. ~Pat Beaman

“ I am so sad to hear this news. Dr. Baczkowski has been my doctor for over 20 years and she is responsible for literally saving my life. 14 years ago I had colon cancer and when I mentioned to her that I was having a lot of diarrhea she did a rectal exam and it showed blood. At 42 years old my regular doctor said it was diet. Dr. Baczkowsik had a nurse follow up with me to make sure I schedule the colonoscopy which I was going to totally blow off. If it was not for her I would not be hear today. I am so sad and my prayers are with her family and friends!!

I miss Dr Baczkowski so much too and she also saved my life. She said after menopause to contact her IMMEDIATELY if ever I noticed any blood. Years later I saw something. I must say it was so minimal that I wasn't going to call. Actually I wasn't even sure it was blood. Instead it was a slight tinge of pink, but I heard Dr Baczkowski's words in my ears so I made the call and went in. She found a lot of blood and said, "You are DEFINITELY having a hysterectomy." And then I got the call-stage 3 cancer. By the time I had surgery the cancer had spread to some nodes and I had to have chemo and radiation. That was 5 years ago and I am now fine. Thank you so much, Dr Sheri. My heart goes out to her children, family and friends. 🥺🥺❤️

“ Very saddened to hear about the loss of this woman mother and dr. She was caring and very good at what she did. If it wasnt for her who knows if my baby would be here. Every dr wanted to wait to full term and she knew i had to deliver 2 weeks early and fought for it. The day i gave birth my baby almost didnt make it. Had i waited any longer wouldve been bad. I was looking fwd to having my next baby and having sheri as my dr.. condolences to all who lost this woman in there life

Dr.B aka Sheri will be TERRIBLY missed. Her heart, compassion, and her entire being already is missed. My mom was her babysitter/nanny. My mom learned how to raise me and my siblings by caring for the Baczkowski sisters. By doing that, I have the most amazing mom. Happy Mother's Day Sheri and to my mom too. My heart breaks for the Basczkowski's. Dr.Sheri is and always, ALWAYS and will forever remain AMAZING! I have 2 incredible boys thanks to her. RIP Dr.B. You are so already missed.

“ I am so very saddened to hear of Dr. Baczkowski's passing. She has been my doctor for the past 20 or more years. Although thankfully I never had to see her more than once a year, she remembered me through those yearly visits. Not only did she take care of my medical needs, she also made sure that all was well emotionally. Dr. Baczkowski always enjoyed talking about her wonderful daughters, and most recently their college journeys. To get to know her though only seeing her once a year was a true talent that she possessed. She also came through with everything that she said she would do--like call another doctor to find out their opinion on my care, and then getting back to me. That was so appreciated. It will be very difficult for me to replace her as a doctor, but that is so so little compared to the exponential grief I am sure that her daughters and family are experiencing. My thoughts and prayers are with you, and please know that on Mother's Day, you can say convincingly "Job well done, Mom."

“ Dr.B was such an amazing , and caring doctor . She was there for me during two of the toughest times of my life . During my first pregnancy loss , I had went to the other office to get a sonogram and that’s when I was told it was a miscarriage . Dr.B literally was on the cellphone with me crying. She was very uplifting , supportive and showed nothing but her deepest condolences to me . She let me know that whatever I needed she would be there to help me through this and she even did my d/c surgery . I am so saddened to hear of her passing , she was such a beautiful person , her career was way more than just a career to her . She cared about her patients and that’s what made her stand out to me . I will keep her family in my prayers.

“ We are shocked and saddened by the sudden death of our friend and our daughter’s OB/GYN.. Sheri was so wonderful with our daughters and so strong and her convictions regarding their health issues. She had such an amazing sense of humor and she always made us laugh. It felt like she was a friend as well as a doctor. No one will ever take her place but we will continue to go to this practice in her honor. We know the family as well and my husband Todd and I are so heartbroken for you all. Dr. B is my favorite doctor of all time. She was a petite, blonde bundle of the most able energy, and had a friendly to-the-point way about her. She was ultrai committed, conscientious, and expert in OB/GYN. Dr. B knew a situation when she saw it, but always observed protocols to accelerate to quickly get to the point of treatment, with a minimum of fuss -- keeping her patients as calm as possible and totally confident in her care. I was a patient for about 20 years. I always recommended Dr. B. to others, as she had been recommended to me. Dr. B, you will be terribly missed! To the Family, you are in my thoughts and prayers.

Dr. Baczkowski was an AMAZING woman. She was the first OBGYN to REALLY LISTEN to me and to assure me that what I was going through was normal. Once I found her, I never wanted to lose her, so naturally I followed her wherever she ended up, even when it was an hour away. I remember her being so excited for me when we found out that I was pregnant with my first child, after being told the chances of becoming pregnant were extremely slim. In 2008, Dr. B saved my life in an emergency situation after a routinely scheduled surgery. I remembered when they called for the Rapid Response Team and then she shows up after being called away from dinner out with her husband. I will be forever grateful to her for taking such amazing care of me. My thoughts and prayers go out to the entire family. Please know that your mother, sister, wife, aunt made a difference in the lives of so many women. RIP Dr. B!!
